

Join our Community in Wildfire Preparedness

Ready to improve your home's defenses against wildfire? Get a free wildfire hazard assessment and take advantage of first come first serve grant funding that can match up to 50% of the cost to improve our ecosystem health and decrease your properties risk.

Why Mitigate

- The state identified our county as one of the highest risk counties.
- Our ecosystem depends on wildfire to cleanse and regenerate and remain healthy.
- Due to local high winds, heavy fuels, steep terrain and arid climate wildfire can quickly spread.
- Reducing fuel paths and home hardening are achievable methods to reduce your risk.

What

Mitigation projects complying with grant process and procedures are eligible for up to 50% reimbursement.

How

Go online to verify your property is in the project area; along CR 240 and CR 243 surrounding Lemon Reservoir. Then, sign up for a free risk assessment.

Reach us to sign up and with your questions.

FUNDING FOR Wildfire Mitigation

Do you own land in the area of County Roads 240, 245 or 243 surrounding Lemon Reservoir? (Project area is in pink to the right)

Attend a public meeting to learn about grant funding to reduce your wildfire risk and improve our community's resilience.

Who

If you live in the WIIN grant area, you are invited to attend and hear presentations (and ask questions) from grant partners and public land managers.

When

- April 18th, Tuesday at 5:30 pm
- May 1st, Monday at 5:30 pm

Where

- April - Zoom and La Plata County Fairgrounds, Lightner Rm
- May - Upper Pine River Fire Protection District Office

Why

Grant funding for up to 50% reimbursement is available first come first serve so we can work together to prepare for wildfire.
